

Breast health aware. Every woman. Every day.

Early detection of breast cancer saves lives. At Avon, we believe that no woman should die because she was left in the dark about breast cancer.

Too many women still don't know enough about this disease. *Join us to help change this.*

TOGETHER WE WILL...

help every woman know the risks

so, no matter her age, she understands the risks of developing breast cancer, and what she can do to manage them.

help every woman know the signs

so she knows what breast health means for her, and can recognise the early signs of breast cancer.

help every woman know how to take action

so she can seek help and medical advice when it's needed.

Join us.

Beauty for a Purpose
